Work on the "military addition" to Waco started yesterday with the arrival here of F. A. Jones, president of the Jones Construction company of

The Jones company, which has the contract for the building work and general construction at Camp MacArthur, plans to rush the work to completion with all possible speed and as a consequence will employ about 1,600 men of various trades.

Jack Lotz and W. A. Croghan of Roston, construction superintendents, have arrived from the East and have taken up active work in connection with the camp building.

Plans for the camp have been approved by the war department and yesterday Mr. Jones received authority to go ahead with the building. J. M. Penland, president of the Chamber of Commerce; Capt. H. B. Work was also started on the digging of water ditches. Water will be piped in as soon as the piping has been received. An order has been placed for 40,000 feet of six-inch pipe and this already has been shipped by a Pittsburg firm. It is expected here in a few days' time. Five million feet of lumber has been ordered for the construction at the grounds. Maj. John B. Hawley, engineer of the

Men Housed in Tents.

The men will be housed in tents, but the mess halls, hospitals, bath houses, and canteens will all be of wood. There is to be a permanent water system. This will have to provide for a "city" of its own. There will also be electric lights in the camp and telephones. Ordering of materials for this construction is now being done and the work will be carried along as fast as the building construction 'allows. Mr. Jones stated yesterday that buying of materials for the immense amount of work to be done here would be donlocally, so far as possible, and local labor will be employed.

"We have a great amount of work to do in a short time," said Mr. Jones, "and will have to employ a large number of skilled workers as well as many common laborers. Work will be rushed with all possible speed and I hope to have construction well under way in the near future."

Hetty Anderson, 22, leaves Rogers after her mother's death, comes to Waco, and settlesyin a cheap boarding house, where she meets a rather fascinating woman. Mrs. Neil Brady, who has left her husband for "Billy" Matthews, a well-to-doman about town. When Billy takes Hetty out with him and Neil, he fails in love with Hetty and a scene with Neil follows. Neil goes back to her husband and Billy pursues Hetty's friendship while she works at Eanger's and later at the Bethlehem Machinery company. He takes her to Cameron park in his car on a picnic, where he tells her he toves her, but for the moment scouts marriage.

Hetty's desirability finally provokes Billy into a proposal of marriage, but netells her that he carnot promise to be true to her after marriage, but will try to be. She leaves him in disgust.

Hetty conceived a strong dislike for her employer at the Bethlehem Machinery company, Durham, and the president of the company, Baker. The only civil person is the drummer, "Sunshine" Jackson.

Billy calls upon Hetty and she, in a fit with me."

After we had made the circuit about three times, Billy ran the car to the side of the road and offered to help me out.

"What are you going to do?" I asked, dreading the conflict that I knew was to follow. I wished bitterly that I had had the strength to resist his invitation.

"I just want you to take a little walk with me." he said, apparently hurt at my question.

"I can't Billy?" I said, struggling to keep caim.

"You are coming. What did you think I brought you out here for?" he demanded angrily. "My God, I have been hungering for the sight of you for a week and you say 'I can't' when I ask you to walk through a park with me."

Billy calls upon Hetty and she, in a fit of blues, welcomes his company and an invitation to an auto ride.

"There is nothing our colonies produce that we cannot utilize to the best advantage, yet France did only 40 per cent of the trade of our colonies, excluding Algiers, Tunis and Morocco, in 1913; 21/2 per cent of their trade was between themselves, the rest, about 57 per cent, was with foreign countries. Germany and Austria were rapidly increasing their share of it before the war. Their trade was 30,000,000 francs in 1907. It had grown to 70,000,000 francs a year in 1912. Germany's trade was the largest of all; in some of our colonies, Dahomey, for instance, coming even before that with France.

for nervous weakness, stomach, liver or kidney disease or some other ailment when their real trouble was lack of iron in the blood.—How to tell.

New York, N. Y.—In a recent discourse Dr. E. Sauer, a Boston physician who has studied widely both in this country and in great European medical institutions, said: "If you were to make an actual blood test on all people who are ill you would probably be greatly astonished at the exceedingly large number who lack iron and who are ill for no other reason than the lack of iron. The moment iron is supplied all their multitude of dangerous symptoms disappear. Without iron the blood at once loses the power to change food into living tissue and therefore nothing you eat does you any good; you don't get the strength out of it. Your food merely passes through your system like corn through a mill with the rollers so wide apart that the mill can't grind.

As a result of this continuous blood and nerve starvation, people become generally weakened, nervous and all run down and frequently develop all sorts of conditions. One is too thin; another is burdened with unhealthy fat: some are so weak they can hardly walk; some think they

MIKE, JESSE & CO.

BY POP BOONE.

After almost winning himself a ball game with a home run blow yester-Duffy turned right around and chunked it away again in the ninth, when he failed to field his position, allowed two runs and a Waco victory

It was a tight game—one in which each side looked like winners, which was featured by chances to score. A game that leaves a lot to talk about. leaves a lot to talk about.

The blow-up in the ninth was absolutely unscheduled. The breaks looked like they had switched to the Houston club and it was a 40-to-1 bet that the Buffs would win.

You see, Duffy had untied a 1-1 score with a home run blow in the eighth. But he turned right around and started the eighth for the locals by issuing a pass to Vann. Manager Hardy then pulled some real smart baseball, although it didn't look smart. This, however, wasn't the Skipper's fault. Anyhow, after Vann had walked, Dabie was sent in to run for the catcher, while Malmquist was sent in to but for Donalds. Looked pretty good for a minute. But Mal, in an effort to bunt, popped up to Newnam and a half minute later Davis was caught off first base. Wow, such a headache!

Well. sir, anybody might well imagine that such a break wouls easily decide any old game. But it didn't. Sims pitched the last inning for Waco and returned Houston runless. Then Britton made an error on Wotell's grounder. I've noticed one thing about this Mike Wotell. The opposing fielder can't fumble a ground ball. Any time he does he loses a durn good chance to throw a good man out. That old Wotell boy just naturally digs down there to first, every step and all the time. So, when Britton barely fumbled Mike's grounder in the ninth, Waco had a start. Leslie's bunt was handled quickly by Duffy, but is chunk to Mc-Carty at first was six feet wide of the sack and Les also was sefe. James' bunt was perfect. Tanner foozled his blow, it rolling out the path to Duffy, with a small hop to it—just right to scoop and toss to Noyes, waiting at the plate. But the pitcher couldn't find the handle and again all hands were safe, Leslie landing at third, while Wotell had packed home the trying score. Grubb and Leslie then staged a perfect squeeze—so perfect, in fact, that neither Duffy nor Newman even picked up the hall or attempted to handle it. Leslie was a few feet from the plate when the ball was bunted by Grubb and the bunt was not over ten feet from the plate when the first inning. Duffy

Waco scored in the first inning. Duffy started out like a house afire by fanning Miller and Wotell almost on successive strikes. Then he passed Leslie. Jesse James smashed the first ball pitched and it lined over Britton's head, between Neusel and Stellbauer, with rothing but the sel and Stellbauer, with rothing but the fence hedn't been there it might be going yet.

Leslie scored easily from first.

Houston tied it in the fifth when Donalds opened the inning by walking Hub Northen. Eddie Noyes poked a dinky liner past Tanner that Buddy missed by a throw from Vann and Tanner, when he jumped up to catch the ball to relay it to Grubb at third dropped the throw and Northen was safe at third. Duffy grounded to the left of Grubb in such a way that he could not recover and try for Northen at the plate, but he made a fast double play, with Conwell as the pivot.

Duffy's home run in the eighth tied the score.

HIS VERSION OF GAME

EVERS SHIFTS HIS UNIFORM

For the third time in his baseball career Johnny Evers has shifted his club uniform and his efforts with the Philadelphia Nationals will be followed with interest by fans throughout the country. The present season is the fifteenth that Evers has served in the big leagues. During this lengthy period, viewed from the standpoint of the baseball player, Evers has had a remarkable and spectacular record upon the diamond. Noted for both his quick thinking and fiery temperament he has figured in some of the most sensational of the national game episodes.

Evers made his baseball date.

New York, July 24 .- The final and definite decision of the National Lawn Tennis association to replace the cham-

nite decision of the National Lawn Tennis association to replace the championship singles tourney brings about the first break in the national tennis championship since 1881. While the patriotic tournament to be played at the West Side club. Forest Hills, 'L. 'L. beginning August 20. Is expected to draw the entry of a number of the leading eastern and western players there will be not title or trophy at stake. The winner will receive a certificate stating that he won the tourney, which owing to the The winner cannot, however, claim a least upon the present titular bowl which has been in competition for several years. Under these conditions there is a break in the chain of singles championship competitions, the first in thirty-six years. During this period fourteen players have won the title of singles champion. It divided fourteen years between themer. D. Sears and W. A. Larned having won the title seven times each. Sears holds the greater share of the honors, however, as he won his seven championships and two titular trophies in succession. His record shows that he captured the cup each season from 1881 to ning in 1901-2 did not reappear as champion until 1907, when he began a five-year tenure of the premier tennis position.

in the country. In a smuch as no regattas of championship class have been held this year, it is expected that a large number of crews will be entered. A silver trophy will become the permanent property of the club that wins it three times. According to the conditions of the event, the race will be under the auspices of the club which last won the race it is to be held annually, the last sunday of July. The distance of the event will be one and one-quarter mile upstream.
